SEE WHAT DEALERS ARE SAYING

It's no secret that AG genuinely cares about your success and the wellbeing of your customers.

We have been with AvantGuard for almost two years now. Our clients and our team have provided nothing but positive feedback. We are seeing quick responses to alarms, as well as prompt answers to any questions our team has. Because of AG's up-to-date central stations, our integration with Alarm.com has been flawless.

Mike Richardson - Spartan Security Systems Inc.

AvantGuard has been a terrific partnership for us. Mijac Alarm has been listed in the top 100 alarm companies and most alarm companies in this category have their own central station. We have AvantGuard with less headaches, fewer employees, and greater ability for options for our clients, all at a very fair price. Thanks AG!

Steve Sopkin - Mijac Alarm

AvantGuard has been a strong partner for Preventia for over ten years. They educated us on best practices when we first started in the industry, giving us honest information for our best interests that have served us. They continue to work with us diligently to make sure our customers are always receiving the best service possible.

Aaron Whitaker - Preventia Security

I've been in the industry for going on nine years and out of the three central stations I have worked with, AvantGuard is by far superior in the monitoring services and support they provide. There isn't a single question or situation that I have brought to AG that they have not been able to help me resolve. They are always willing to help and very prompt when doing so.

Marshall Woodruff - Brinton Security Services, LLC

We have been in the business for over 30 years and were looking for a new central station with more attention to our customers. After making one phone call and a trip to Utah, we decided that AvantGuard was for us and our customers. There is no doubt that management cares about their employees and dealers, and the decision was made to make the change.

Wayne Gorrell - D.A.L. Security Systems

361 Technologies

After 23 years in the alarm business, I've never worked with a monitoring center that was so fast! AG has unbelievable speed and customer service. Light years above the rest.
