

avantguard®

A Becklar Company

The AG Difference

AvantGuard is a premier provider of wholesale event response monitoring, poised to monitor and respond to any signal, anytime, with exceptional speed, accuracy, and service.

NOT ALL MONITORING CENTERS ARE CREATED EQUAL

REST EASY KNOWING THAT WHEN YOU CHOOSE AG YOU ARE GUARANTEED THE FOLLOWING:

- **Fastest emergency response times in the industry** – 9.4 seconds
- Partnership with a TMA recognized ‘Monitoring Center of the Year’
- Eight fully staffed, redundant monitoring centers across the US and Canada
- The most talented, well-trained, caring operators in the business
- Aggressive, ongoing investment in innovation and technology advancements
- Access to our finely tuned, customized account migration process
- A culture of genuinely caring and exceptional service
- Our passion to save lives and protect property is unparalleled

PROFESSIONAL WHOLESALE MONITORING

AvantGuard provides the industry's fastest, most reliable professional monitoring solution available today. We support a breadth of critical event management devices from security, fire, and PERS devices, to a plethora of IoT devices and applications that monitor environment, health, safety or security related events.

CLOUD MONITORING

AvantGuard's cloud monitoring platform is designed for companies that have their own monitoring center. It provides a cost-effective way for your business to monitor your own signals using our powerful, cloud-based automation software. You will enjoy access to our automated action plans, personalized scripts, API extensibility, receiver-less signals, and a handful of other cloud-based solutions.

HYBRID MONITORING

AG's hybrid monitoring solution gives your central station the freedom of cloud monitoring combined with the robust capabilities and full redundancy of our professional monitoring service. You also enjoy services like our auto dial, two-way voice, and backup storage. Plus, it gives you the option to have AG operators cover for you on weekends, nights, or those hard-to-schedule holidays.
